DOLORES MANDRIGUES, JUANITA  
JONES, AL F. MINYEN and WILMA R.  
MINYEN, MARK CLAUSON and  
CHRISTINA CLAUSON, individually and on  
behalf of all others similarly situated,

Plaintiffs,

v.

WORLD SAVINGS, INC., WORLD SAVINGS  
BANK, FSB, WACHOVIA MORTGAGE  
CORPORATION, and DOES 1 through 10  
inclusive,

Defendants.

**CASE NO. C-07-04497 - JF**

Judge: Hon. Jeremy Fogel  
Ctrm: 3

**CLASS ACTION**

**STIPULATED E-DISCOVERY PROTOCOL**

Complaint Filed: August 29, 2007  
Trial Date: Not set yet.

1 WHEREAS, Plaintiffs DOLORES MANDRIGUES, JUANITA JONES, AL F. MINYEN and  
2 WILMA R. MINYEN and MARK CLAUSON and CHRISTINA CLAUSON, Defendant Wachovia  
3 Mortgage, FSB, formerly known as World Savings Bank, FSB (“World”) and Defendants WORLD  
4 SAVINGS, INC., and WACHOVIA MORTGAGE CORPORATION (“Other Defendants”) have agreed  
5 that the following protocol shall apply to the production of documents existing in electronic form by all  
6 parties in this action:

7 **1. General.** All documents that originally existed in native electronic form that are  
8 produced in this action shall be produced in electronic image form in the manner provided herein. Each  
9 document’s electronic image shall convey the same information and image as the original document  
10 unless material from the original source document has been redacted before imaging. Documents that  
11 present imaging or formatting problems shall be promptly identified; the parties shall meet and confer to  
12 attempt to resolve the problems.

13 **2. Documents in Fixed Tangible Form.** Plaintiffs request the production of electronic  
14 documents in single page Group 4 TIFF format . All electronically stored information (“ESI”) that  
15 exists in fixed tangible form, including emails, email attachments, word processing documents (e.g.,  
16 Word, Word Perfect, etc.), presentation documents (e.g., PowerPoint, Presentations, etc.), PDF  
17 documents, TIFF documents and other complete expressions fixed in a tangible document form shall be  
18 saved in single page Group 4 TIFF format; that reflects how the source document would have appeared  
19 if printed out to a printer attached to a computer viewing the file. To the extent such information is  
20 available, the Metadata (data describing the electronic files) fields outlined in Exhibit B should be  
21 produced in a text format linked to the associated files. This includes Microsoft Office embedded  
22 metadata and Word Perfect embedded metadata. Email attachments shall be ordered to immediately  
23 follow the email to which each is attached. The parties shall produce a “load file” (.dat with  
24 Condordance default delimiters as well as an Opticon (.log) load file) to accompany the images, which  
25 shall facilitate the use of the produced images by a document management or litigation support database  
26 system and shall identify document breaks for each document. The parties shall meet and confer to the  
27 extent reasonably necessary to facilitate the import and use of the produced materials with commercially  
28 available document management or litigation support software.

1           **3. Document Unitization.** Each page of a document produced under 2, above shall be  
2 electronically saved into a separate TIFF image file. If a document is more than one page, the order of  
3 the images constituting the document and any attachments and/or affixed notes shall be maintained as it  
4 existed in the original when creating the image file.

5           **4. Color.** If an original document contains color and the color is substantively part of the  
6 information in the document and black & white imaging materially affects the interpretation or ability to  
7 use the document, the parties shall have the right to request production of color image(s) for such  
8 documents.

9           **5. Bates Numbering.** Each page of a produced document under 2, above shall have a  
10 legible, unique page identifier ("Bates Number") electronically "burned" onto the image at a location  
11 that does not obliterate, conceal, or interfere with any information from the source document, preferably  
12 located at the bottom right hand corner of the document. The Bates Number sequence shall be entirely  
13 alphanumeric, with no spaces or symbols. There shall be no other legend or stamp placed on the  
14 document image unless a document qualifies for confidential treatment pursuant to the terms of the  
15 Protective Order in this litigation or has been redacted. In the case of confidential materials, a  
16 designation may be "burned" onto the document's image at a location that does not obliterate or obscure  
17 any information from the source document. In the case of any document image from which original  
18 material or information has been redacted for any reason, the document's image shall clearly delineate  
19 the portion of the document that has been redacted from the source document, and a short statement of  
20 the asserted basis for the redaction.

21           **6. File Naming Conventions.** Each such document image file shall be named with the  
22 unique Bates Number of the TIF image, followed by the extension ".tif."

23           **7. Electronic Text Files.** The text of each page of a produced document under 2 above,  
24 shall be included in a document level text file that has been electronically extracted from the original,  
25 native electronic files ("Extracted Text") and/or OCR for non-native format images. The Extracted Text  
26 shall be provided in ASCII text format and shall be labeled and produced on Production Media in  
27 accordance with the provisions of paragraph 8. Each text file will be the text that corresponds to each  
28 document, and will be named with the same Bates Number of the first page of the corresponding

document, except that the Extracted Text file name will be followed by the extension “.txt”. Each Extracted Text file will be placed in the same file directory as its corresponding TIF image file. For redacted images, the corresponding text will also be withheld upon production.

8. **Production Media.** The parties shall produce documents on CD-ROM, DVD, external hard drive (with standard PC compatible interface), or such other readily accessible computer or electronic media as the parties may hereafter agree upon (the “Production Media”). The parties shall provide and maintain written production logs that identify, by Bates number range, the dates on which documents are produced and the document custodian(s). Additional information that shall be identified on the physical Production Media shall include: (1) text referencing that it was produced in [Case Docket No.], (2) the producing party's name, (3) the production date, and (4) the Bates Number range of the materials contained on the Production Media.

9. **Databases and Other Dynamically-Stored ESI.** The parties shall meet and confer with respect to all requests for access to discoverable data in databases and other dynamically-stored ESI, (the “Dynamically-Stored ESI”), including all associated metadata and metafiles.

10. **Software Applications to Access Databases and Other Dynamically-Stored ESI.** All software applications or programs that are used in the ordinary course of business to access, use, modify, establish business rules and functions and run reports with respect to discoverable Dynamically-Stored ESI produced under 10 (the “Software Application(s)”), above shall be identified. This shall include all Software Applications obtained by Defendants from a third-party vendor and all relevant customizations thereto; as well as all relevant custom Software Applications created in-house by or for Defendants’ own use. The parties shall meet and confer to resolve any requests for access to such applications.

11. **Other Files.** The parties retain the right to request that specific file types, such as Excel and spreadsheet files, video files and audio files, be produced in native format, including metadata and metadata files, or a reasonably acceptable alternative form of electronic production that permits usable access to discoverable information. The parties shall meet and confer with respect to such specific requests, including appropriate means of securing the protection of such material under the terms of the Protective Order issued in this action and/or redaction of privileged or otherwise non- discoverable

1 information.

2       **12.    Original Documents.** In the event that the parties determine through the meet and  
 3 confer process that certain documents need not be produced in native format at this time, the parties  
 4 shall retain and preserve the original native electronic source documents in a manner so as to preserve  
 5 the metadata associated with these electronic materials in the event review of such metadata is  
 6 warranted. The parties shall take no steps that would in any way make production of electronic data less  
 7 convenient for that would increase the cost associated with the future production of such documents.  
 8 All parties reserve the right to seek all documents in their native format.

9  
 10 IT IS SO STIPULATED, THROUGH COUNSEL OF RECORD.

11 PURSUANT TO STIPULATION, IT IS SO ORDERED.

12 DATED: 8/14/, 2008

13   
14 Hon. ~~Jeremy Fogel~~ RICHARD SEEBURG  
15 United States District Judge  
16 MAGISTRATE JUDGE

**EXHIBIT A****ACKNOWLEDGMENT AND AGREEMENT TO BE BOUND**

I, \_\_\_\_\_ [print or type full name], of \_\_\_\_\_ [print or type full address], declare under penalty of perjury that I have read in its entirety and understand the Stipulated Protective Order that was issued by the United States District Court for the Northern District of California on \_\_\_\_\_ [date] in the case of Dolores Mandrigues et al v. World Savings, Inc. et al, Case No. C-07-04497 - JF. I agree to comply with and to be bound by all the terms of this Stipulated Protective Order and I understand and acknowledge that failure to so comply could expose me to sanctions and punishment in the nature of contempt. I solemnly promise that I will not disclose in any manner any information or item that is subject to this Stipulated Protective Order to any person or entity except in strict compliance with the provisions of this Order.

I further agree to submit to the jurisdiction of the United States District Court for the Northern District of California for the purpose of enforcing the terms of this Stipulated Protective Order, even if such enforcement proceedings occur after termination of this action.

I hereby appoint \_\_\_\_\_ [print or type full name] of \_\_\_\_\_ [print or type full address and telephone number] as my California agent for service of process in connection with this action or any proceedings related to enforcement of this Stipulated Protective Order.

Date: \_\_\_\_\_

City and State where sworn and signed: \_\_\_\_\_
